DETAILED ACTION

This action is responsive to applicants' amendment and response received July 31, 2003.

Claims 16-23 and 27 are currently pending with claims 16, 17, and 27 withdrawn from consideration.

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 18-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Smith et al, US 5,658,651.

Smith et al teach a fabric treatment and softener system for in-dryer use (see abstract). The treatment system comprises a textile sheet impregnated with a fabric treatment formulation comprising a liquid vehicle selected from water, organic solvent, and mixtures thereof (col. 2, lines 33-50). Suitable organic solvents include ethylene glycol (col. 9, lines 46-55) and nonionic surfactants are taught as useful in these formulations (col. 7, lines 17-67). Additional fabric treatment agents, such as shrinkage controllers, may be added to these formulations (col. 3, line 39). The textile sheet is comprised of woven or non-woven fibers which are adhesively or thermally bonded (col. 4, lines 13-20). It would have been obvious to one of ordinary skill in the

Art Unit: 1751

art to formulate a fabric treatment composition comprising ethylene glycol as such solvent is taught as suitable in the fabric treatment compositions of Smith et al. The examiner acknowledges the ethylene glycol of Smith et al is not specifically taught as a shrinkage controller, however, a treatment composition containing ethylene glycol will inherently exhibit this property.

Applicants have traversed this rejection on the grounds that absent a specific teaching of ethylene glycol as a shrinkage controller. Smith et al cannot render obvious the present claims. The examiner respectfully disagrees. As shrinkage controllers are taught as suitable additives in the compositions of Smith et al and ethylene glycol is taught as a suitable solvent, the examiner maintains it would have been obvious to one of ordinary skill to incorporate ethylene glycol in a composition concerned with shrinkage control and so render obvious the claims at hand.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time 3. policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however,

Page 4

Application/Control Number: 09/763049

will the statutory period for reply expire later than SIX MONTHS from the mailing date of this

final action.

Art Unit: 1751

4. Any inquiry concerning this communication or earlier communications from the examiner

should be directed to Charles Boyer whose telephone number is (703) 308-2524. The examiner

can normally be reached on Monday-Friday from 9:30 AM - 6:00 PM.

If reasonable attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Yogendra Gupta, can be reached on (703) 308-4708. The fax phone number for this

Group is (703) 872-9310 for non-after-final amendments and (703) 872-9311 for after-final

amendments.

Any inquiry of a general nature or relating to the status of this application should be

directed to the Group receptionist whose telephone number is (703) 308-0661.
